Water for Ukraine -

**780 days after the start of the Russian
war of aggression against Ukraine**

The initiative

- Water4Ukraine - Water for Ukraine - collects urgently needed technical materials such as vehicles, car batteries, emergency generators, pumps and technical relief supplies and coordinates their transport to Ukraine.
- Till today, donations in material worth over 4 million euros have been collected and transported to Ukraine.
- The Lviv Water Utility Company "Lvivvodokanal" is coordinating aid for a large number of waterworks throughout Ukraine so that the material can be used to rebuild the water supply in the most severely damaged areas of Ukraine.
- Lviv is Ukraine's central logistics hub, from where humanitarian aid deliveries are sent to the affected areas.

What has been achieved so far

- 15 convoys between May 2022 and March 2024
- More than 200 tonnes of aid material and around 50 vehicles transferred to Ukraine
- Donations in materials with a procurement value of around **4 million Euro** from municipal and private companies from all over Germany
- Temporary storage locations at the Wuppertal municipal utilities WSW and the waste management company
- Warehouse in the Ukraine in Lvivvodokanal

The organisation behind Water for Ukraine

- Civitas Connect e. V. has launched the Water for Ukraine initiative. More than 40 municipal partners, cities, districts and municipal energy service providers are organised in the cooperation platform.
- W4U has been a non-profit organisation under German law since January 2024. The establishment of a Ukrainian branch is in preparation.
- The initiative is supported by the Association of Municipal Enterprises (VKU).
- Water4Ukraine is also supported by the state government of NRW. NRW.Global.Business, the international business development organisation of the state of NRW, is one of the initiators of the initiative.

Wasser für die Ukraine

Fast help that arrives directly

- All partners can participate directly in the initiative.
- Water for Ukraine e.V. ensures that all donations in kind and funds received can be used for the equipment required to restore the water supply without overheads.
- Together with the partners in Ukraine, a list of requirements with more than 2000 individual items has been drawn up.
- Each donation can be allocated to material resources (emergency power generator / pump set / chainsaws, etc.) and recipients.
- Material donations from municipal utilities and companies are collected centrally.
- The transport to Lviv is coordinated by Water for Ukraine in co-operation with the NRW Ministry of Economic Affairs.
